

LEAN[®] SYSTEM

FLEXIBLE SOLUTIONS WITH ENDLESS POSSIBILITIES

Lean Manufacturing solutions

The Company was founded in 1838 by the Scaglia family and remains in their ownership to the present day. It was the foundation stone of an important industrial Group, which has now diversified into a wide range of commercial businesses worldwide, with plants and subsidiaries in many countries.

LEAN MANUFACTURING SOLUTIONS

Since the late 1990s Scaglia Indeva SpA has been supplying modular systems and AGVs (automated guided vehicles) designed to suit the Lean Manufacturing philosophy.

Scaglia INDEVA's modular system is called the 'Indeva Lean System'. It comprises a wide range of components including abrasion resistant plastic-coated steel tubes, steel joints, roller tracks and accessories. This enables you to design and build a variety of structures to suit any need within the manufacturing process. Applications could include, ergonomic workstations, trolleys, carts and dollies, flow racks, gravity fed racks, line-side racks, shelving and modular stage systems.

'Indeva Lean System' structures are simple to design, quick to assemble, and completely reusable.

With the 'Indeva Lean System', you can design and build material handling and work assist structures to your exact specification and requirement so helping to meet Lean Manufacturing goals.

'Indeva Lean System' fully supports the principles of the Lean Manufacturing and Kaizen Philosophy and it is, therefore, the ideal tool for those companies aiming for space optimisation and continuous improvement processes.

FIFO GRAVITY FLOW RACKS

- Reduced flow lines
- Increased productivity
- Quick to adapt for different parts and processes
- Minimal design cost
- Reusable components

'Indeva Lean System' is the ideal solution for the design and assembly of in-house material handling carts.

WORK IN PROCESS CARTS

- Safe support for delicate, high value parts
- Effortless material handling alongside production lines
- Very easy to manoeuvre
- Quick to adapt for different parts and processes
- Easy to build for temporary demand
- Reusable components

'Indeva Lean System' allows you to build ergonomic workstations to suit your requirement with convenient parts presentation and integral lighting

- Parts presentation to suit process
- Improved ergonomics
- Overhead tool support rails
- Quick to adapt for different parts and processes
- Components can be used over and over as your requirements change

WORK PLACES

SUPPLY OPTIONS

In order to meet our customers' requirements, Scaglia Indeva offer the following supply options:

SUPPLY OF ASSEMBLED STRUCTURES

Our engineers design and assemble the structures at our facility and ship them complete and ready for use upon delivery.

SUPPLY OF KITTED STRUCTURES

Our engineers provide a design suitable for your requirements and supply all the parts pre-cut and packaged in a kit for you to build.

SUPPLY OF BULK COMPONENTS

Who knows your need better than yourself? Scaglia Indeva guarantee quick delivery of the components for your own staff to design and build suitable structures.

ON SITE TURN KEY SUPPLY

Our design and build team will come to your site, assess the requirement, design and build the solution and hand over on completion.
