INTELLIGENT DEVICES FOR HANDLING

INDEVA RIGID ARM MANIPULATORS

REVISED RANGE

Both the **Liftronic Air** (electronically controlled manipulators) and the **PN Ergo** (pneumatically controlled manipulators) ranges present **new standard models**, in order to suit a great variety of requirements.

- Load capacity up to 570 kg.
- Industrialized design: reliability and safety also for custom-designed solutions.
- State of the art solution for handling off-set loads.
- Up to 4 meters working radius.
